

## REVISION: PRE-WORK FOR SENIOR PRACTITIONER PART 2

Guidance for this assignment:

Please arrive at our first session having reviewed the following key areas in preparation for Senior Practitioner Part 2. We will use your review as a springboard to an efficient review of content and to gain an understanding of our collective level of understanding and application of the core models and frameworks from the Practitioner (Module 1) and Senior Practitioner Part 1 (Module 2). **You are not required to submit anything.** The suggested content to pay special attention to is:

- The Team Coaching Framework
- PERILL Model
- Psychological Safety
- CNIIC Model
- Complex Adaptive Systems
- Contracting/Agreements
- The Team Coaching Conversation

Please come prepared with:

1. Questions about the application of the material, preferably from experience
2. Experiences to share, including successes and challenges in applying these to virtual team coaching
3. If you haven't had the opportunity to practice with some or all of these, please prepare based on what experience you have had or brush up enough on the material to be able to speak about it
